

Changelog

All notable changes to **Pharos RealFi Dashboard** are documented here.

This project follows [Semantic Versioning](#) and [Keep a Changelog](#) conventions.

Unreleased

Planned

- Real Pharos RPC integration for live block data
 - Wallet connect support (MetaMask / WalletConnect v2)
 - Real portfolio balances via on-chain address lookup
 - Live dApp TVL from Pharos subgraph endpoints
 - PROS/USD price from PharosDEX on-chain oracle
-

1.0.0 — 2026-05-01

Initial Release — Pacific Ocean Mainnet Launch

This is the first public release of the Pharos RealFi Dashboard, shipped on the same week as Pharos Network's Pacific Ocean Mainnet launch (April 28, 2026).

Added

- **Chain Vitals panel** — live-simulated TPS, total transactions, finality, RWA TVL, and active dApp count with animated progress bars
- **RWA Portfolio Tracker** — donut allocation chart across Treasuries, Credit, Real Estate, and Commodities asset classes with per-asset breakdown
- **Ecosystem dApp Explorer** — 8 live Pharos mainnet protocols with TVL and 24h change indicators (PharosDEX, Morpho, Bitverse Perp, PharosOracle, pAlpha Vault, AutoStaking AI, Orbiter Bridge, zkDID Identity)

- **Live Transaction Feed** — streaming simulated on-chain activity updating every 1.1 seconds across 8 transaction types
- **Yield Opportunities chart** — ranked APY comparison with animated bar fills from 16% (pAlpha Vault) to 5% (PROS staking)
- **On-Chain RWA Asset Registry** — table of tokenized assets (JTRSY, JAAA, PHRE-01, CMDX, GCL-ENRG) with yield and compliance status
- **SPN Network Monitor** — real-time status for RWA Settlement, AI Inference, HFT Trading, and DePIN SPNs
- **\$PROS Token Tracker** — live price simulation, staking lock percentage, and roadmap milestone checklist
- **Live price ticker bar** — persistent bottom bar with 8 assets updating every 4 seconds
- **Animated ocean-themed UI** — deep navy background, teal/gold accent system, scanline animation, CSS noise texture, and pulse effects
- **Fully responsive layout** — 3-column desktop, 2-column tablet, 1-column mobile
- **Zero-dependency architecture** — single HTML file, no build tools required

Design

- Nautical / deep-sea aesthetic reflecting Pharos's "Pacific Ocean Mainnet" branding
- Color system: #00c8b4 teal, #e8c16a gold, #3ed98a green, #e8564a red
- Typography: Syne (headings), DM Mono (data), Crimson Pro (prose)
- Ambient radial gradients, CSS noise overlay, animated scanline

0.9.0 — 2026-04-29 (Pre-release / Internal)

Added

- Initial prototype with static chain stats and placeholder dApp grid
- Basic portfolio donut chart (static)
- Skeleton ticker bar layout

Changed

- Switched from React prototype to single-file HTML for zero-dependency deployment

Removed

- Removed bundler dependency (Vite config scrapped)
-
